Community Advisory Board Internal Business Meeting

The monthly meeting of the Community Advisory Board (CAB) for Nevada Test Site Programs is scheduled for 6-9 p.m., Wednesday, October 3, 2001. The meeting will take place in the Great Basin Conference room at the U.S. Department of Energy's (DOE), National Nuclear Security Administration Nevada Operations Office (232 Energy Way, North Las Vegas, Nevada).

The public is welcome to join the CAB at a working meeting to address administrative issues, annual election of officers, and an update on the status of the pending Underground Test Area (UGTA) Peer Review report.

The Board is comprised of a volunteer group of citizens who provide Nevada Operations Office's Environmental Management Program with informed recommendations on environmental activities at the Nevada Test Site. The CAB typically meets on the first Wednesday of each month and is chartered under the DOE's Environmental Management Site Specific Advisory Board.

All advisory board meetings are open to the public and attendees are encouraged to actively participate.
